IMPORTANT DATES, DEADLINES

March 16 - April 24: University Summer ’15 registration window

April 10 (Noon): Early deadline for funded students (TA, RA) to complete their registration, and the closing date of the GRID. The information you provide in your GRID is final. If you have to change your grid after this deadline, you must see Dr. Kirby.

Summer session dates:

- Summer A: May 11 - August 7
- Summer B: May 11 - June 19
- Summer C: June 29 - August 7

May 9 - May 14: Drop/Add window for Summer A and B.

June 27 - July 2: Drop/Add window for Summer C.

DO YOU HAVE TO REGISTER DURING SUMMER?

If you will work as a TA/RA during summer, then you must register as a full-time student in one of the summer sessions. Courses (with tuition waivers) may be taken in different summer session(s) from the teaching assignment session(s).

If you will not work as TA/RA during summer, then there are two cases:

- **Pre-doctoral candidates**: summer registration is optional and you are free to take the summer off.
- **Doctoral candidates**: you must register for at least 2 hours every semester, including summer, if you use campus facilities and/or receive faculty supervision. Please read my memo on taking summer off which I emailed to all students on 3/11/15.

REGISTRATION HOURS

If you are funded by the department (TA/RA) during summer, then you must register for:

**Florida residents:**
- ★ 12 hours for summer A (or, B and C together)
- ★ 9 hours for only B, or only C.

**Non-Florida residents (includes international students):**
- ★ 9 hours for summer A (or, B and C together)
- ★ 5 hours for only B, or only C.
WHAT COURSES SHOULD I TAKE?

★ Precandidates: If you are not yet a candidate by June 19 (this is the end of Summer B), then you must register for one graded course. These are the math courses offered this summer:

MAA 5307 0001 Advanced Calculus 2, Dr. Nolder, TR, 11-12:30, LOV 200. (A Session)

MAA 5932-0001 Complex Dynamical Systems, Dr. Kim, MTWRF, 12:30-1:50, LOV 106. (C Session)

MAD 5932 0001 Applied Graph Theory, Dr. Bellenot, MTWRF, 2-3:20PM, LOV 102. (C Session)

MAP 5345 0001 Elementary PDE I, Dr. Ewald, MWF, 9:30-10:30, LOV 107. (A Session)

★ Preparing for Qualifiers: If you are getting ready for a summer qualifier, then you can register for MAT 5933 Qualifier Prep for up to 3 hours. There is a Qualifier Prep section for each summer term. Make sure you register for the correct one.

★ Planning for Summer Candidacy: If you will take your Doctoral Candidacy Exam in Summer, then you can register for MAT 6908 Cand Prep up to 4 hours. Contact Pamela Andrews to create your Cand Prep section.

★ Candidates: Candidates must enroll for at least 2 dissertation hours in summer according to university rules, whether they are paid or not by the department. If you are a candidate, and supported by the department this summer as TA/RA, then you can register for 2-12 Dissertation Hours. Please contact Pamela Andrews to create your dissertation section.

WHAT IF YOU NEED MORE HOURS?

You can register for MAT 5933 and 6933, Advanced Topics, for 1-3 hours, by Drs. Bellenot and Ökten. There is a section for each summer term. You can also register for the TA class, if you have already participated in the TA class. If you still need more hours, please contact Pamela Andrews.

QUESTIONS?

If you don't see the section number you need, or cannot register for a class, see Pamela Andrews. For other questions such as candidacy, or issues related to timely progress, see Dr. Ökten.

NOTE: Appropriate adjustments to your registration will be made, if necessary, by the Associate Chair for Graduate Studies and the Academic Program Specialist.
