Mathematics and the Web – Nov 13, 2002

What is a filter?

- ls -l | more

What is a filter?

- ls -l | more

- du -sk * | sort -nr

What is a filter?

- **ls -l | more**

- **du -sk * | sort -nr**

- **grep '[Ee]rror' make.out | wc**

What is a filter?

- ls -l | more

- du -sk * | sort -nr

- grep '[Ee]rror' make.out | wc

- sort * |uniq -c|sort -nr

-

What is a filter?

- Reads input from stdin

What is a filter?

- Reads input from stdin

- Writes output to stdout

What is a filter?

- Reads input from stdin

- Writes output to stdout

- Errors to stderr

What is a filter?

- Reads input from stdin

- Writes output to stdout

- Errors to stderr

- Pipes instead of temp files

What is a filter?

- Reads input from stdin

- Writes output to stdout

- Errors to stderr

- Pipes instead of temp files

- filter1 $<$ input $|$ filter2 $|$ filter3 $>$ output

Sample filters

- sort − sorts lines alphabetically

Sample filters

- **sort – sorts lines alphabetically**

- **sed – stream editor – s/old/new/**

Sample filters

- **sort** – sorts lines alphabetically

- **sed** – stream editor – s/old/new/

- **tr [:upper:] [:lower:]**

Sample filters

- sort – sorts lines alphabetically

- sed – stream editor – s/old/new/

- tr [:upper:] [:lower:]

- uniq – removes duplicate lines

Sample filters

- sort – sorts lines alphabetically

- sed – stream editor – s/old/new/

- tr [:upper:] [:lower:]

- uniq – removes duplicate lines

- grep – matches regular expressions
