

DEPARTMENT OF MATHEMATICS
STUDENT SYLLABUS
MAC 1140 sec. 5, 8, 9, 11, or 12
Summer C 2017
Lecture MTWRF 12:30-1:50 in 102HCB
Lab Classes TR

INSTRUCTOR: Dr. Penelope Kirby
OFFICE: 108-B MCH
E-MAIL: pkirby@math.fsu.edu
OFFICE HOURS: Refer to “Office Hours
and Tutoring” on BlackBoard

Section	5	8	9	11	12
Meeting Time	8-8AM	9:30-10:30 AM	9:30-10:30 AM	11 - Noon	11 - Noon
Room	113HTL	113HTL	114HTL	113HTL	114HTL

Important: *You must attend the Lab section for which you are registered. You may change sections only during DROP/ADD.*

ELIGIBILITY: You will be deemed eligible for this course if (1) you have credit for MAC 1102 or MAC 1105 (or an equivalent course in College Algebra) with a grade of C- or better, or (2) you have scored in AMP Group A3 or higher, or (3) you scored a 61 on the ALEKS placement. It is the student's responsibility to check and prove eligibility. Ineligible students will not be allowed to take this course. Advisement assistance is available in 205-D LOV.

COURTESY AND ATTENDANCE: Students are expected to get to class on time and not to leave class until class has been dismissed. If you must leave class early, please let your instructor know before class begins. You are expected to attend class regularly. Studies show that students who attend class get higher grades than those who skip classes. A student absent from class bears the full responsibility for all subject matter and procedural information discussed in class. Students whose names do not appear on the class roll cannot attend classes.

TEXT: Algebra and Trigonometry, 10th Edition, by Michael Sullivan. MyMathLab access is required for this class and MyMathLab comes with the e-book when you use your access to register for the class MyMathLab site. A print version of the text is optional. Students taking MAC1114 or MAC1105 may use the same (e- or print) text as a resource. Once a student has purchased access to the e-text and MyMathLab for any one of the courses: MAC1105, MAC1114, or MAC1140; there will be no additional cost to enroll in the course site for any of the other of these three courses. Students that have purchased access for a course using a different text (for example, a chemistry class) will need to purchase another access code to be used for the Sullivan text.

There is a two week grace period in which students may access all online content before purchasing access and it is recommended that students try the online options before deciding on whether or not to purchase the print in addition to the access code for the online content. To purchase the MyMathLab access only, students may purchase the code while registering for MyMathLab using a credit card or PayPal, or may purchase an access card from the Bookstore. To purchase the print version of the text, students may purchase the loose leaf text bundled with the access code for MyMathLab at the bookstore or through MyMathLab.

All Tests and in-class quizzes in MAC1140 will be taken using MyMathLab. It is the student's responsibility to have purchased access and entered the access code before the third week of classes (before the grace period is over). There will be no extensions nor excused absences for not acquiring access or for not remembering login credentials.

MyMathLab registration information can be found at the Department MAC1140 Course Site:
<http://www.math.fsu.edu/~pkirby/mac1140/>.

INTERNET ADDRESSES (bookmark on your computer):

<https://portal.mypearson.com/login> (Course assignments)
<http://www.math.fsu.edu/~pkirby/mac1140/> (Department Course Site)

COURSE OBJECTIVES: This course is intended to give students important mathematical background needed for the study of more advanced courses in mathematics, engineering, and computer science.

COURSE DESCRIPTION: This course covers functions and graphs, especially high degree polynomial, rational, exponential, and logarithmic functions; systems of equations; solutions of linear systems; matrix methods; determinants; sequences and series; induction; and the binomial theorem. The course also explores applications, approximation, and methods of proof. May be taken concurrently with MAC 1114.

CALCULATOR POLICY: The only authorized calculator allowed during in-class tests and quizzes is the calculator available on the computer hard drive in the lab classrooms. No other calculators are allowed. The use of unauthorized calculators is a violation of the Academic Honor policies, as stated below, and will be dealt with accordingly.

COURSE CONTENT:

UNIT	TOPICS (tentative)	EXAM	DATE
Unit I	R.5, 1.3, 4.3, 5.1-5.3	Test 1	Thurs. July 6
Unit II	5.4-5.6, 6.2-6.8, 11.2	Test 2*	Thurs. July 20
Unit III	11.3-11.4, 12.1-12.4, 13.1-13.5	Test 3*	Thurs. August 3

All unit tests will be given in the assigned lab classes on the date indicated.

It is not possible to take your test with another lab class even on a one-time basis.

*Test may contain material from previous units

GRADING: There will be three unit tests (T_1, T_2, T_3), 8 quizzes taken in your assigned lab classes, homework and attendance. Numerical course grades will be determined

$$\text{Grade} = 25\%T_1 + 30\%T_2 + 30\%T_3 + 8\%Q + 5\%HW + 2\%A$$

Where Q = the average of the 8 lab quizzes, HW = Homework Grade, and A = Lecture Attendance.

Letter grades will be determined from numerical grades as follows.

A = 92.50 or above	B+ = 87.50-89.49	C+ = 77.50-79.49	D = 62.50-69.49
A- = 89.50-92.49	B = 82.50-87.49	C = 72.50-77.49	D- = 59.5 – 62.49
	B- = 79.50-82.49	C- = 69.50-72.49	F = below 59.50

UNIVERSITY ATTENDANCE POLICY: Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

TEST/QUIZ POLICIES: A test absence or quiz absence will be excused only if the student presents sufficient verifiable evidence of acceptable, extenuating, unavoidable circumstances. An acceptable medical excuse must state explicitly that the holder should be excused from class **on the day of the absence**. Students will not be given excused absences to attend family functions or non-university activities.

If a test absence is excused then a makeup exam must be scheduled with Dr. Kirby within one week of returning to classes. If a quiz absence is excused, then that quiz will not be counted toward the course grade. The Test 3 grade minus a penalty may be assigned for an unexcused test grade. A grade of zero will be used for an unexcused quiz grade.

No quiz or test grades will be dropped.

Students must bring FSU ID to all tests.

FSU ID and sharpened pencils are needed for all tests and quizzes. All other materials must be put away and be off the table during quizzes and exams.

AMERICANS WITH DISABILITIES ACT: Students with disabilities needing academic accommodation should: (1) register with and provide documentation to the Student Disability Resource Center; and (2) bring a letter to the instructor indicating the need for accommodation and what type. Please note that instructors are not allowed to provide classroom accommodation to a student until appropriate verification from the Student Disability Resource Center has been provided.

Each student must meet with his/her lecturer to discuss his/her particular situation and the available testing options. Accommodations will be provided within one week of that meeting.

This syllabus and other class materials are available in alternative format upon request. For more information about services available to FSU students with disabilities, contact the:

Student Disability Resource Center 874 Traditions Way

108 Student Services Building Florida State University Tallahassee, FL 32306-4167

(850) 644-9566 (voice)

(850) 644-8504 (TDD). sdrc@admin.fsu.edu <http://www.disabilitycenter.fsu.edu/>

FREE TUTORING FROM FSU: For tutoring and writing help in any course at Florida State University, visit the Academic Center for Excellence (ACE) Tutoring Services' comprehensive list of tutoring options - see <http://ace.fsu.edu/tutoring> or contact tutor@fsu.edu for more information. High-quality tutoring is available by appointment and on a walk-in basis. These services are offered by tutors trained to encourage the highest level of individual academic success, while upholding personal academic integrity. Students should use caution when engaging the services of tutors (or tutoring services) that have no affiliation with FSU. If a tutoring service provides information or materials that violate the Academic Honor Policy, then you, by engaging that service, will be in violation of the Academic Honor Policy. If you provide test details to any individual or tutoring service, then you are in violation of the Academic Honor Policy.

ACADEMIC HONOR POLICY: The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to ". . . be honest and truthful and . . . [to] strive for personal and institutional integrity at Florida State University." (Florida State University Academic Honor Policy, found at <http://fda.fsu.edu/Academics/Academic-Honor-Policy>.)

The academic honor system is followed strictly. Students possessing unauthorized notes, using prohibited calculators, or giving/receiving unauthorized assistance on an exam will be dealt with according to FSU Honor Code policy.

ADDITIONAL INFORMATION ABOUT MAC1140 sec. 5-12

LECTURE CLASS meets every weekday. At this time, the instructor will present new material and examples. Prepared lecture notes are on the course BlackBoard site with a tentative schedule for lecture classes. The schedule will be adjusted as the semester progresses, so check the schedule regularly. Before each lecture either download and print the notes and bring to class; or write down the definitions, theorems and formulas and bring to class; or download and save on a smartphone or tablet to view in class. Remember to turn all sounds off on electronic devices. Lectures will follow the lecture notes and we will fill in most of the blanks, though not all, in lecture and students are expected to have the notes in front of them during lecture. Students are expected to complete the assignments from the previously covered material before the next lecture. **Mathematics builds on itself and mastery of the previous material is needed to learn the new material.**

An internet capable device will be required for lecture attendance. In lecture, we will use the *Learning Catalytics* provided with MyMathLab. Students will be given a "Session ID" at the beginning of each lecture and should login to that Catalytic Session. See the course BlackBoard site for more information.

LAB CLASS meets in a computer equipped classroom each **Tuesday and Thursday** at the time assigned for your section, as listed above. **Note that food and drinks that cannot be sealed and put in a backpack may not be brought in the room.**

The first meeting of your lab class will be **Tuesday, June 27**. **All Unit Tests will be given in Lab Class. Beginning June 27, on Tuesday and Thursdays in which no Unit Test is scheduled, a quiz will be given.**

Quizzes and Tests in Lab Class will be given using **MyMathLab**. For more information on **MyMathLab**, click the "**MyMathLab**" link in the course BlackBoard site.

On days in which there is no test, students must bring in their notes from lecture for the previous week, scrap paper, pencils, eraser, and picture ID. On quiz days, students will have an opportunity to practice the objectives on the lab class computers before taking each quiz. Student will have limited opportunity to ask questions from the Lab Procter during the practice time. However, students should have already practiced the objectives before lab class and sought out extra help as needed before lab class. Refer to the "Office Hours and Tutoring" on the lecture BlackBoard site for when and where extra help is available.

On test days students should bring picture ID, pencils and eraser. No other materials will be allowed. Scrap paper will be provided. **The test will be given during the entire lab class. Students may not study or practice in the lab classroom on test days.**

SYLLABUS CHANGE POLICY: Except for changes that substantially affect implementation of the evaluation (grading) statement, this syllabus is a guide for the course and is subject to change with advance notice.
