

**Resume of Research, Teaching and Service: Mark Sussman,  
March 2017**

Department of Mathematics, Florida State University  
Tallahassee, Florida 32306-4510  
Phone: (412) 818-9932; Fax: (850) 644-4053  
E-Mail: [sussman@math.fsu.edu](mailto:sussman@math.fsu.edu)  
Web Site: <http://www.math.fsu.edu/~sussman>

**Professional Preparation**

- 1989-1994 PhD, University of California, Los Angeles, Los Angeles, CA.  
Major: Mathematics. Dissertation: A Level Set Approach for  
Computing Solutions to Incompressible Two-Phase Flow.  
Dissertation supervisor: Stanley Osher.
- 1987-1989 MA, University of California, Los Angeles, Los Angeles, CA.  
Major: Mathematics.
- 1983-1986 BS, San Diego State University, San Diego, CA.  
Applied Mathematics, Physics and Computer Science.  
Graduated summa cum laude.

**Post-Degree Education and Training**

- 1996-1999 Visiting Research Assistant Professor, University of California,  
Davis, Davis, CA. (mentor: Elbridge Gerry Puckett)
- 1994-1996 Post Doc, Lawrence Livermore National Laboratory, Livermore, CA.  
(mentor: John Bell)

**Professional Experience**

- 2010-present Professor, Florida State University Mathematics
- 2005-2010 Associate Professor, Florida State University Mathematics
- 1999-2005 Assistant Professor, Florida State University Mathematics
- 2011-2011 Consultant, Sandia National Laboratory (spray simulation methods)
- 2009-2011 Consultant, UTRC (spray simulation methods)
- 2007 Consultant, SAIC (Code enhancements to NFA)
- 1987-1992 Programmer, Unique Business Systems, Santa Monica, CA

## Honors and Awards

1. Computational Mechanics Achievement Award, The Japan Society of Mechanical Engineers, Computational Mechanics Division (2007).
2. Tannasawa Award (2015), for best ICLASS (International Conference on Liquid Atomization and Spray Systems) paper at Heidelberg conference: Arienti and Sussman, "Nozzle Geometry Effects on Primary Atomization." September, 2012.
3. Journal of Chemical Engineering Japan outstanding paper award: Ohta, Kimura, Furukawa, Yoshida, Sussman, "Numerical Simulations of a bubble rising through a shear-thickening fluid," 45(9), 2012.  
<http://www.scej.org/jcej/outstanding.html>
4. Fluid and Particle Processing Award, the Society of Chemical Engineering, Japan (2003).

## RESEARCH

### Refereed Journal Articles (accepted or appeared)

1. Chaoxu Pei, **M. Sussman**, and M. Yousuff Hussaini (2017). A Space-Time Discontinuous Galerkin Spectral Element Method for the Stefan problem. *Fluid Dynamics and Materials Processing*, accepted.
2. M. Arienti and **M. Sussman** (2016). A Numerical Study of the Thermal Transient in High-Pressure Diesel Injection. *International Journal of Multiphase flow*, doi:10.1016/j.ijmultiphaseflow.2016.09.017.
3. Y. Guo, Y. Lian, **M. Sussman** (2016). Investigation of drop impact on dry and wet surfaces with consideration of surrounding air. *Physics of Fluids (1994-present)*, 28(7), pp. 073303 (2016).
4. K. Yokoi, R. Onishi, X.-L. Deng, **M. Sussman** (2016). Density-scaled balanced continuum surface force model with a level set based curvature interpolation technique. *International Journal of Computational Methods*, 1641004 (2016).
5. G. Li, Y. Lian, Y. Guo, M. Jemison, **M. Sussman**, T. Helms, M. Arienti (2015). Incompressible Multiphase flow and encapsulation simulations using the moment of fluid method. *International Journal for Numerical Methods in Fluids*, 79(9), pages 456-490 (2015).
6. M. Jemison, **M. Sussman**, M. Shashkov (2015). Filament capturing with the multimaterial Moment-of-Fluid method. *Journal of Computational Physics*, 285, pages 149-172 (2015).
7. M. Jemison, **M. Sussman**, M. Arienti (2014). Compressible, multiphase semi-implicit method with moment of fluid interface representation. *Journal of Computational Physics*, 279, pages 182-217 (2014).
8. M. Ohta, Y. Akama, Y. Yoshida, and **M. Sussman** (2014). Influence of the viscosity ratio on drop dynamics and breakup for a drop rising in an immiscible low-viscosity liquid. *Journal of Fluid Mechanics*, 752, pages 383-409 (2014).
9. M. Arienti and **M. Sussman** (2014). An Embedded Level Set Method for Sharp-Interface Multiphase Simulations of Diesel Injectors. *International Journal of Multiphase Flow*, 59, pages 1-14 (2014).
10. M. Jemison, E. Loch, **M. Sussman**, M. Shashkov, M. Arienti, Y. Wang, M. Ohta (2013). A coupled level set-moment of fluid method for incompressible two phase flow. *Journal of Scientific Computing*, 54(2-3), pages 454-491 (2013).

11. M. Arienti, X. Li, M. Soteriou, C. Eckett, **M. Sussman**, and B. Jensen (2013). Coupled Level-Set/Volume-of-Fluid Method for simulation of Injector Atomization. *Journal of Propulsion and Power*, 29(1), pages 147-157, DOI: 10.2514/1.B34198 (2013).

### Invited Presentations

1. **M. Sussman.** (2017, May 30-June 1). Invited presentation to give a keynote speech in “CFD 2017,” Norway:  
<https://www.sintef.no/projectweb/cfd-2017/program/>

2. **M. Sussman.** (2017, May 5). Invited presentation to give a presentation in the second international symposium on Autonomous Inland Shipping; KU Leuven, Belgium:  
<https://www.mech.kuleuven.be/en/pma/research/robotics/research/Symp/SympAS>
3. **M. Sussman.** (2016, July). Invited presentation to give a talk in the workshop on complex boundary and interface problems, CRM, Montreal.
4. **M. Sussman.** (2015, August). Invited presentation to give 3 talks at the Beijing Computational Science Research Center.
5. **M. Sussman.** (2014, September). Invited presentation to give a talk in the University of Florida, ChemE colloquium.
6. **M. Sussman.** (2014, March 25-27). Cartesian grid, level set and immersed boundary lecture series, Bordeaux.
7. **M. Sussman.** (2013, March). Invited presentation to give a talk in the FSU-DSC colloquium.
8. **M. Sussman.** (2012, October). Invited presentation to give a talk in the University of Louisville, ME colloquium.
9. **M. Sussman.** (2012, September). Invited presentation to give a talk in the 2012 Workshop on Advances in Computational Mathematics and Engineering (workshop in honor of M.Y. Hussaini).
10. **M. Sussman.** (2012, September). Invited presentation to give a talk in the FSU-FAMU engineering colloquium.
11. **M. Sussman.** (2012, July). Invited presentation to give a talk in the LANL colloquium.
12. **M. Sussman.** (2012, June). Plenary speaker at ICNMMF 2012, Penn State University.
13. **M. Sussman.** (2012, April). Invited presentation to give a talk in the CalTech math colloquium.
14. **M. Sussman.** (2012, March). Invited presentation to give a talk in the NJIT math colloquium.
15. **M. Sussman.** (2011, December). Invited presentation at workshop on transport processes on moving interfaces II. (Aachen, Germany).
16. **M. Sussman.** (2011, September). Invited presentation at workshop on transport processes on moving interfaces I. (Heidelberg, Germany).

17. **M. Sussman.** (2011, January). Invited lectures on interface tracking methods in the workshop “Frontier CFD for strongly nonlinear marine hydrodynamics.” (Harbin, China)
18. **M. Sussman.** (2010, April). Gave lectures on interface tracking methods in the workshop “INDAM intensive period on fluid dynamics.” (Catania, Italy)
19. **M. Sussman.** (2010, March). Japan SIAM (Tsukuba), The development of appropriate smoothers for multigrid when used as a preconditioner for CG.
20. **M. Sussman.** (2009, August). An adaptive multi-phase flow solver for coupled-ocean atmosphere modeling. Presentation at the workshop on free boundary/surface problems, Boulder, CO: NCAR.
21. **M. Sussman.** (2009, July). Overcoming the surface tension time step constraint when computing incompressible two-phase flows. Keynote presentation in R. Rao, D. Noble, and T. Baer (chairs), CFD for free and moving boundaries. Symposium conducted at the meeting of the USNCCM X, Columbus, Ohio.
22. **M. Sussman.** (2007, December). Adaptive level set methods for ship hydrodynamics. Keynote presentation at the Trondheim, Norway workshop, CFD solvers for unsteady marine applications, capabilities and challenges: Center for Ships and Ocean Structures.
23. **M. Sussman.** (2007, November). An adaptive multi-phase flow solver for incompressible viscous and visco-elastic flows. Presentation at SAMSI workshop on interfaces, Raleigh-Durham, NC: SAMSI.
24. **M. Sussman.** (2007, June). A scalable adaptive solver for simulating the break-up of a liquid jet in a cross-flow. Presentation at the workshop on atomization and spray, East Hartford, CT: United Technologies Research Corporation.
25. **M. Sussman.** (2007, May). An adaptive multi-phase flow solver for incompressible viscous and visco-elastic flows. Presentation at Frontiers in Applied and computation mathematics (FACM 07), Newark, New Jersey: New Jersey Institute of Technology.
26. **M. Sussman.** (2005, June). High order VOF height fraction techniques for extracting curvature from the VOF function. Presentation at conference on free boundary problems, Coimbra, Portugal: University of Coimbra.

27. **M. Sussman.** (2003, September). Adaptive level set methods for all-speed flows. Keynote presentation at the Brussels, Belgium, workshop on industrial challenges in the simulation of evolving interfaces: Mathematics, Computing, and Simulation for Industry (MACSINET) workshop, Vrije University.
28. **M. Sussman.** (2001, May). An adaptive level set method for ship waves and underwater explosions/implosions. Presentation at IPAM Workshop on Geometrically Based Motions in Image Processing, Computer Vision, and Computer Graphics. Los Angeles, CA: IPAM (UCLA).
29. **M. Sussman.** (2001, January). An adaptive level set method for simulating ink-jet devices. Presentation at IMA hot topics workshop: Analysis and modeling of industrial jetting processes. Minneapolis, Minnesota: IMA.

### Contracts and Grants

1. Y. Lian, **M. Sussman**, NASA B - Verification and enhancement of a 3D nucleate pool boiling simulation model using PSI data. (2017-2018) 200K.
2. **M. Sussman**, M.Y. Hussaini. A spectrally accurate hybrid moment-of-fluid and level set method for multiphase flow. NSF DMS 350K (incremental 3 year grant August 2014-2017).
3. **M. Sussman**, M. Roper. Computational Design of microfluidic structures. NSF DMS 300K (incremental 3 year grant August 2010-2013).
4. **M. Sussman.** Acoustic cross-talk in jetting devices. Funded by Kodak. (2008). Total award: 5K
5. **M. Sussman**, G. Erlebacher, X. Wang, and D. Kopriva. SCREMS: High Performance Computing and Visualization. Funded by NSF. (2007). Total award: 115K
6. **M. Sussman.** A Computational study of the spray characteristics of a liquid jet atomized by cross-flowing air. Funded by NSF. (2007-2010). Total award: 322K
7. **M. Sussman.** Code enhancements to NFA. Funded by SAIC. (2007). Total award: 13K
8. **M. Sussman.** Numerical Modeling of underwater implosions. Funded by ONR. (2004-2006). FSU award: 55K

9. **M. Sussman.** U.S. Japan Cooperative Science: A computational study of bubble and drop dynamics in inelastic and viscoelastic non-Newtonian fluid systems. Funded by NSF. (2003-2007). Total award: 46K
10. **M. Sussman.** Advanced Fluid Modeling Capability for Underwater shock analysis of Naval Ships, Phase II, STTR grant together with Weidlinger corporation. Funded by ONR. (2002-2004). FSU award: 120K
11. **M. Sussman** and M.Y. Hussaini. Numerical methods for microscale and nanoscale multiphase flow in general geometries. Funded by NSF. (2001-2005). Total award: 100K
12. **M. Sussman.** Advanced Fluid Modeling Capability for Underwater shock analysis of Naval Ships, Phase I and Phase I option STTR grant together with Weidlinger corporation. Funded by ONR. (2001-2002). FSU award: 40K
13. **M. Sussman.** Numerical Modeling of vapor bubble creation and collapse in 3D general geometries. Funded by XEROX. (2000-2001). Total award: 10K
14. **M. Sussman.** First-Year Assistant Professor award. Funded by FSU. (2000). Total award: 10K
15. **M. Sussman,** E.G. Puckett, A. Edelson, A. Fannjiang, J. Gravner, D. Stuart. Mathematical Sciences Computing Research Environments. Funded by NSF. (1997). Total award: 40K
16. **M. Sussman** and E.G. Puckett. Efficient, High Resolution, Numerical Methods for Free-boundary Problems with Surface Tension. Funded by NSF. (1997-2001). Total award: 60K.

### **Host for Visiting Professors and graduate students**

1. Professor Mitsuhiro Ohta, Summer 2002, 2003, 2004, 2005
2. Dr. Nikiforakis (Cambridge) for two days in January 2008.
3. Dr. Shin Rhee (S. Korea) for two days in 2008.
4. Dr. Kensuke Yokoi (Cambridge) for two days in 2008.
5. Professor Kuniyoshi Abe, January 2008 to June 2008.
6. Marcel Kwakkel (Netherlands), June 2010.

7. Valeria Artale (Sicily), November 2010.
8. Eva Loch (Germany), August-December 2011.

## TEACHING

**Courses Taught:** Calculus I, Calculus II, Linear Algebra, Advanced Calculus, Ordinary Differential Equations, Partial Differential Equations, Partial Differential Equations II, Engineering Math I, Engineering Math II, Numerical Analysis I, Numerical Analysis II, Numerical PDE I, Numerical PDE II, Foundations of Computational Math II, MAD6939: Numerical methods for deforming boundary problems.

### **Chair of Doctoral Dissertation Supervisory Committees**

1. Samet Kadioglu, graduated PhD. (2005).
2. Edwin Jimenez, graduated PhD. (2009). (co-advisor)
3. Yaohong Wang, graduated PhD. (2010).
4. Svetlana Simakhina, graduated PhD. (2010).
5. Austen Duffy, graduated PhD. (2011). (co-advisor)
6. Xiao Chen, graduated PhD. (2011) (co-advisor)
7. Matthew Jemison, graduated PhD. (2014)
8. Chaoxu Pei
9. Feifan Liu
10. Yang Liu

**Member of Doctoral Dissertation Supervisory Committee:** Daniel Fenn (university representative, graduated 2016), Olmo Zavala Romero (university representative, graduated 2015), Daozhi Han (graduated 2015), Tim Handy (university representative, graduated 2014), Jiangbo Yuan (university representative, graduated 2014), Evan Bollig (university representative, graduated 2013), Anna McGregor (graduated 2010), Viorel Mihalef (graduated 2007), Mark Whidden (graduated 2013), David Shen (graduated), Cesar Acosta (graduated), Yan Yan He (graduated, 2013), Yaning Liu (graduated 2013), Anand Ganesan, Santha Ram Akella (graduated, 2006), Zhenlu Cui (graduated, 2005), Heaya Ann Summy (graduated, 2008)

### **Chair of Master's degree Committee**

1. Ren Zhi-Wei (2003)

2. Hanbing Song (2012)
3. Shakti Bhattarai (2013)

**Chair of Undergraduate Honors thesis Committees**

1. Ben Goldsberry; thesis successfully defended April 2012.

**Postdoctoral supervisor**

1. Dr. Mehdi Vahab (co-advisor)

## SERVICE

1. Hiring committee (2013, 2014, 2015, 2016).
2. Committee Member, University Faculty Sabbatical Committee, (2006-2007,2009-2010).
3. Member, Faculty Senate, (2008-2009).
4. Committee Member, Graduate Committee (2012, 2014-2017).
5. Committee Member, Math Faculty Evaluation Committee (FEC), (2014-2015).
6. Committee Member, Math Faculty Evaluation Committee (FEC), (2009-2011).
7. Committee Member, Math Faculty Evaluation Committee (FEC), (2006-2007).
8. Committee Member, Math Curriculum Committee, (2008-present?).
9. Scheduler, Applied Math Seminar, (2007-2010).
10. Committee Member, numerical analysis qualifying exams (2000-present).
11. Editorial Board Member (2005-present). Fluid Dynamics and Materials Processing.
12. Reviewer of submitted articles to: Journal of Computational Physics, Journal of Fluid Mechanics, Journal of Scientific Computing, Physics of Fluids, Fluid Dynamics and Materials Processing, Physical Review E, Physics Letters A, Methods and Applications of Analysis, Numerical Heat Transfer, Computers and Fluids, Theoretical and Computational Fluid Dynamics, Graphical Models, International Journal of Computational Fluid Dynamics, Journal of Computers and Structures, International Journal of Computers and Mathematics with applications, SIAM Journal of Scientific Computing, SIAM Journal on Numerical Analysis, ASME Journal of Fluids Engineering, CiSE Journal, Computer Methods in Applied Mechanics and Engineering (CMAME), Biophysical Journal, Journal of Computational Mathematics, Siggraph 2007, 2013, Discrete and Continuous Dynamical Systems, European Journal of Mechanics-B/Fluids, European Physical Journal, Numerical Methods for Partial differential equations (NMPDE), International Journal of Multiphase Flow, ASME Journal of Heat Transfer, Applied Mathematics and Computation, Philosophical Transactions of the Royal Society, International Journal of Heat and Mass Transfer, Communications

in Applied Mathematics and Computational Science (CAMCoS), Fluid Dynamics Research, Scientia Iranica, Communications in Computational Physics (CiCP), Journal of Aerospace Engineering, Proceedings of the IMechE Part C - Journal of Mechanical Engineering Science, AIAA Journal, Computing and Visualization in Science, SIAM Journal on multiscale modeling and simulation, International Journal for Numerical Methods in Fluids, International Communications in heat and mass transfer, Journal of Fluids (Hindawi), Journal of Soils and Foundations, WIREs Computational Statistics, IEEE Transactions on image processing, Computational Thermal Sciences, International Journal of Thermal Sciences, Chemical Engineering Science, special issue keynote articles from conference proceedings.

13. Review of grant applications submitted to: DOE, NSF, DFG, NSERC (Natural Sciences and Engineering Research Council of Canada), Netherlands Organization for scientific research, French National Research Agency (body of proposal in French), COST program (European Cooperation in Science and Technology), MOST (Ministry of Science Technology and Space, Israel), “FONDECYT” competition (CHILE).
14. Review of internal FSU CRC proposals.
15. Lead opponent for thesis defense of Karl Yngve Lervag, September, 2013. Norwegian Technical University.
16. Habilitation committee for Dr. Sebastien Tanguy, December 2015. Institute for Fluid Mechanics (IMFT), Toulouse.
17. Proposal panel participant: NSF, DOE, Deutsche Forschungsgemeinschaft (DFG, [www.dfg.de](http://www.dfg.de)), NIH.
18. Review of University promotion folders.
19. Reviewer of book proposals; most recent review for Taylor-Francis proposal “computational methods for interfacial flows.”
20. ICNMMF Executive Organizing Committee (International Conference on Numerical Methods in Multiphase Flows) June 12-14 at Penn State University (2012).
21. Co-organizer of SIAM-SEAS mini-symposium, March 2014 (Melbourne, Florida) and March 2016 (Athens, Georgia).
22. Co-organizer SIAM mini-symposium, conference on scientific computing 2011, 2013, 2015.
23. Co-organizer SIAM mini-symposium, annual meeting July, 2001, 2010.
24. Co-organizer AMS mini-symposium, sectional meeting, 2004.

25. Vice President of Education, Seminole Toastmasters (2005-2009).

**Membership in Professional Organizations:** Society for Industrial Applied Mathematics (SIAM), American Physical Society (APS), American Institute of Aeronautics and Astronautics (AIAA).
