OFFICE PHONE 644-7405

ELIGIBILITY: The prerequisite is Multivariable Calculus, MAC2313, with C- or better. This is 4000 level course so students are expect to have some mathematical maturity as well as the calculus pre-requisite.

TEXT: You will need a complex variables textbook. There are several to choice from on the web site. In other semesters, the most current edition of Brown and Churchill, *Complex Variables and Applications* has been the text. Since all homework problem are on line in a pdf file, there are many text possibilities.

COURSE OBJECTIVES: The purpose of this course is to introduce students to the basic concepts of the beautiful theory of calculus over the complex numbers. This includes the geometry of elementary complex functions, complex path integrals and Cauchy's theorem, and applications of the Residue Theorem, including the evaluation of the real definite integrals using complex methods.

CALCULATOR: No calculators or other electronic devices are allowed on the exam or quizzes.

ATTENDANCE: Attendance and class participation will be factors in determining the final grade. No food or drinks are allowed in the classroom. Please turn off cell phones and keep them hidden during class. It is considered rude and unacceptable to leave class early, students leaving early will be penalized.

COMMUNICATION: It is your responsibility to register for a (free) FSU computer account so that I can send you email, which you are expected to check regularly. If you prefer to read your email elsewhere then you can arrange to have messages forwarded, but you must still obtain an FSU account in the first instance.

GRADING/EXAMS: Grades are based on the easy going 85% A, 75% B, 65% C, 55% D system. Plus/minus letter grades may be assigned (so a 67.5% could be a C-). A grade of I will not be given to avoid a grade of F nor to give additional study time. There will be 3 tests (50% of the grade) and 3 or 4 short quizzes (15% of the grade) and a final (25% of the grade). There will also be homeworks and possibly projects for the last 10% of your grade. All quiz, test and hw due dates are on-line in a google calendar. The dates are tentative. The Final is Wednesday 9 Dec 7:30 am-9:30 am

EXAM POLICY: No makeup tests or quizzes will be given. Late or unstapled assignments will not be normally be accepted. A missed test may be excused if the student presents sufficient verifiable evidence of extenuation circumstances. An unexcused absence from a test will be penalized. If a test absence is excused, then either the final will used in its place, or at the instructors discretion, an oral make-up test might be given. At most one excused quiz scores will be replaced by the next test score appropriately scaled. An unexcused missed assignment will result in a grade of zero. Absences from tests or missing assignments due to family social events will not be excused. Acceptable medical excuses must state explicitly that the student should be excused from class. Students must bring FSU ID cards to all tests.

HOMEWORK: The list of homework problems is the class web site. Email will be sent to the class it this list is ever updated. Some class days students will present problems and on others the homework will be collected. Most students will find that the amount of assigned homework is too small to provide enough practice to become proficient in the material. Please do additional problems as needed.

HOMEWORK RULES: Your **OWN** work, written in clear English. Neatly typed or writtin in ink on one side of standard 8.5 by 11 paper. Multiple pages must be stapled and **NOT** dog-eared or paper clipped.

Homework with a paper clip or with dog-eared pages will receive a zero score. Discussion about the homework problems with other students or the professor is permissible and even encouraged, but the final output needs to be uniquely yours and not obtained by copying from another's solution.

HELP: There is wealth of information on our web pages, be sure to check them before emailing me. (If the answer is on our web pages, I will not give the answer by email.) Sorry, I will only compute your grade once at the end of the semester; but all grades are on-line and you can compute your own grade at any time. Do not hesitate to come to my office hours, or to contact me via email. (Please – no html formatted email, send text only. For files with graphics, I will look at PDF files but not word .doc files) All projects must be turned in in hard copy.

PROJECT FORMAT: The hardcopy needs to be your **OWN** work, written in clear English. Neatly typed or written in ink on one side of standard 8.5 by 11 paper. Multiple pages must be stapled and **NOT** dog-eared or paper clipped. **Labs with a paper clip or with dog-eared pages will receive a zero score.** You are expected to edit scilab output. There should be no false starts, nor unneeded output. Discussion about the lab or homework problems with other students or the professor is permissible and even encouraged, but the final output needs to be uniquely yours and not obtained by copying from another's solution. All labs must be submitted in hardcopy. No electronic copies will be accepted. (But if you are having problems with graphics, I will look at a PDF file.)

REQUIRED STATEMENTS: <http://facsenate.fsu.edu/Curriculum-Forms/Policies>

University Attendance Policy: Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

Academic Honor Policy: The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to "... be honest and truthful and ... [to] strive for personal and institutional integrity at Florida State University." (Florida State University Academic Honor Policy, found at <http://dof.fsu.edu/honorpolicy.htm>.)

Americans With Disabilities Act: Students with disabilities needing academic accommodation should: (1) register with and provide documentation to the Student Disability Resource Center; and (2) bring a letter to the instructor indicating the need for accommodation and what type. This should be done during the first week of class.

This syllabus and other class materials are available in alternative format upon request.
