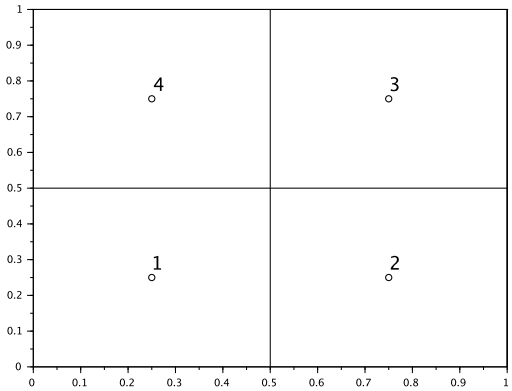
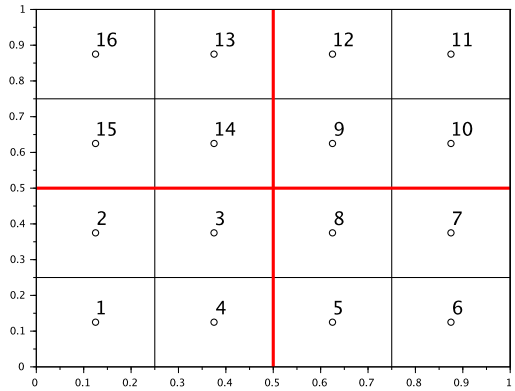
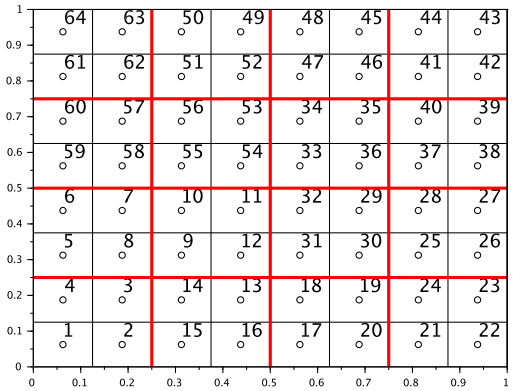
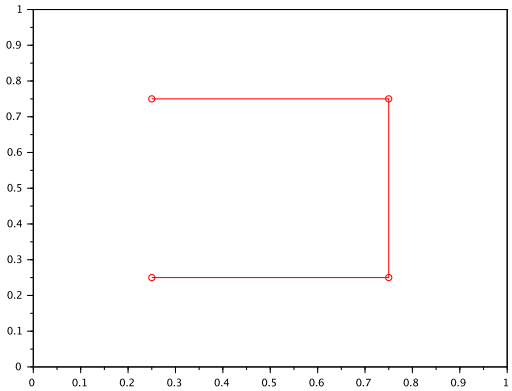
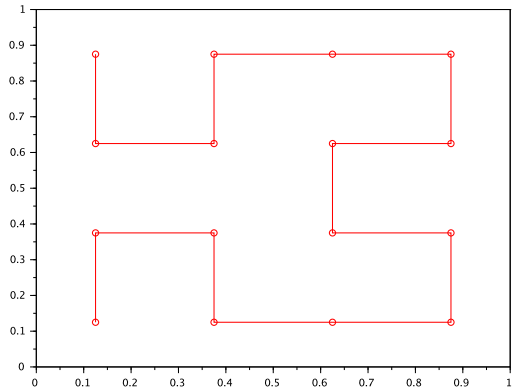
Hilbert's space filling curve

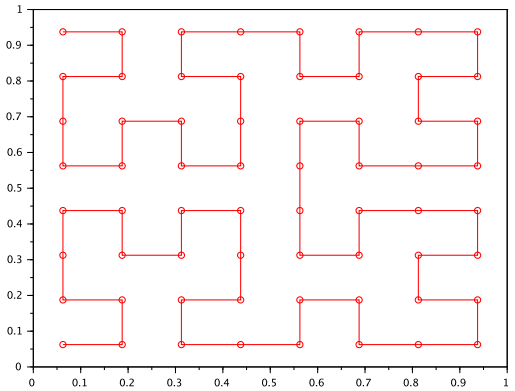












ALEKS

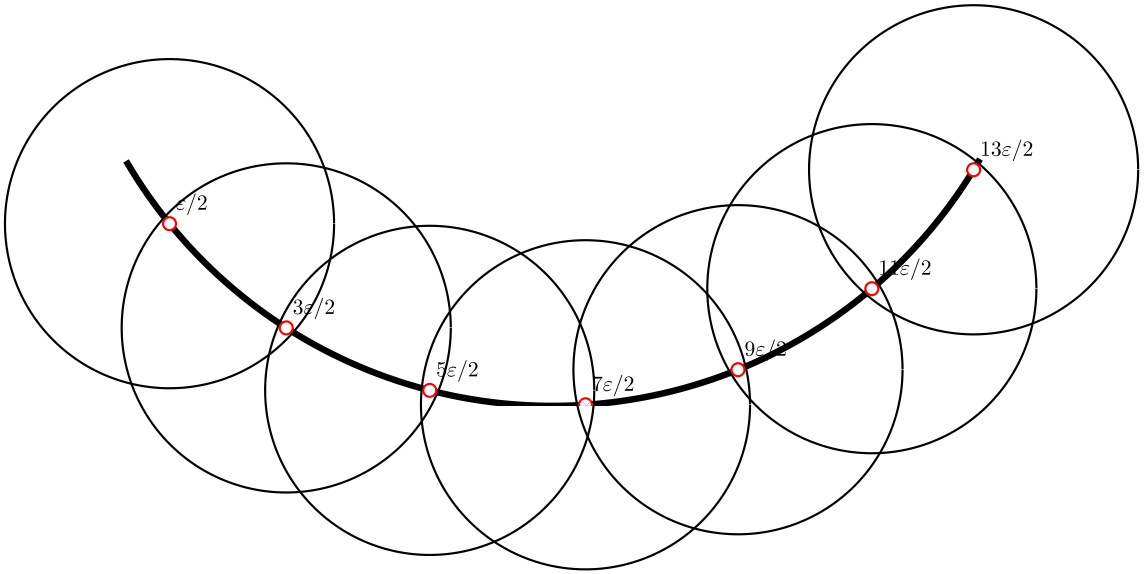
“First Time in College” students in mac1114, mac1140, mac2233, mac2311 and mac2312 are required to take aleks.
And they must use the FSU Summer 16 – Spring 17 cohort.
NOT a way to jump from MAC1105 to MAC2311
NOT a way to avoid repeating a course
NOT a way to avoid trigonometry – separate trig score

Email

Advisors (other than Danielle or Kari) are not your friend

- Do not reply to email from students wanting to add your class, just forward them to advisor@math.fsu.edu

Rectifyable curves have measure zero



$$\frac{L}{\varepsilon}\pi\varepsilon^2$$

Accommodations

- The letter isn't the request. It is a basis for discussion.
- Unlimited Excused Absences. One extra excused absence.

Grade Distributions

http://www.maa.org/CSPCC

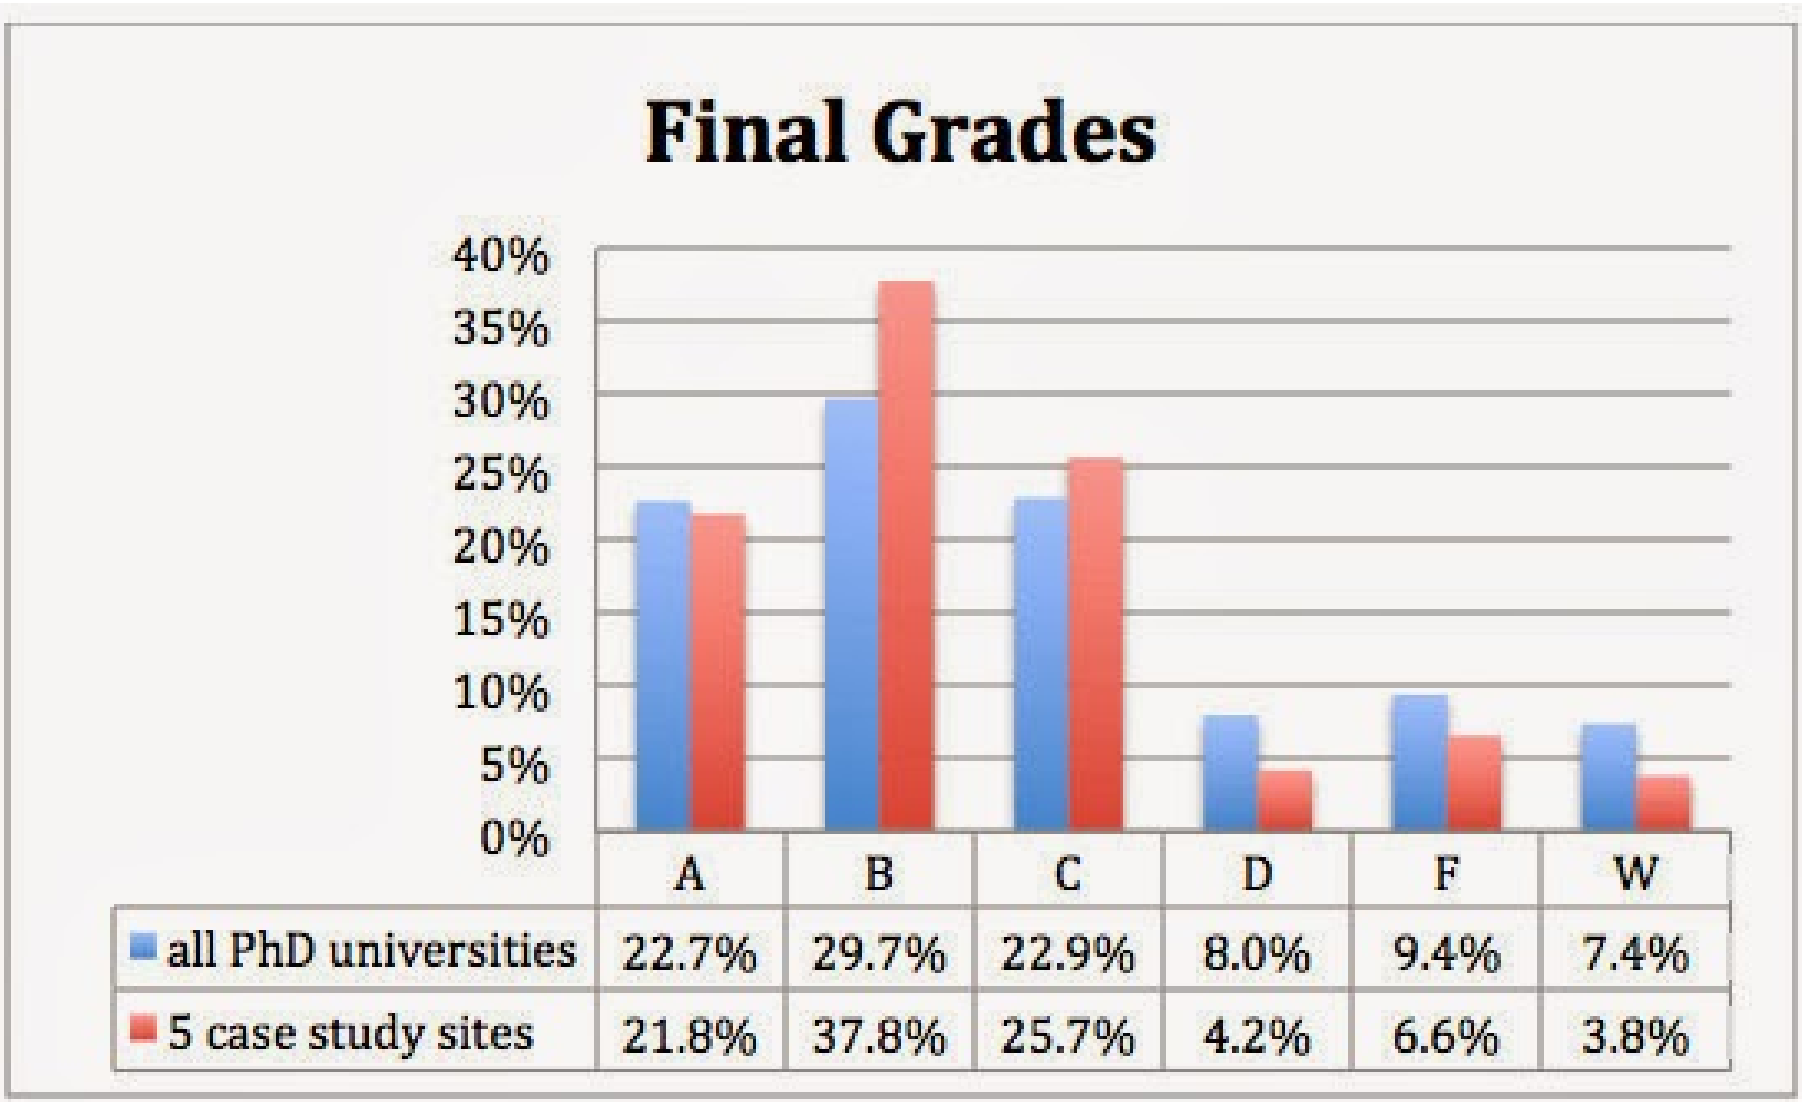


Figure 1: Instructor reported final grades.

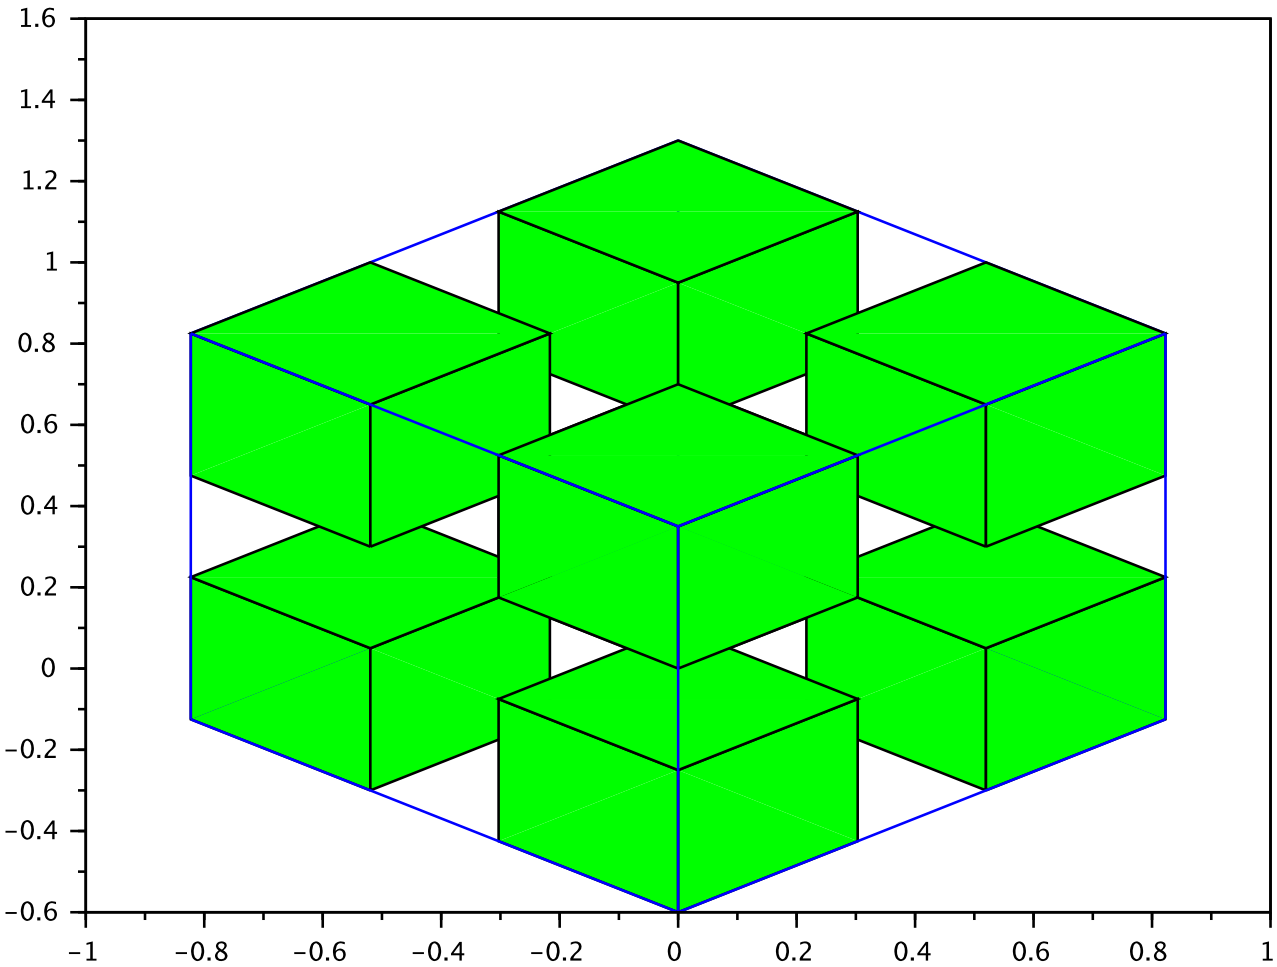
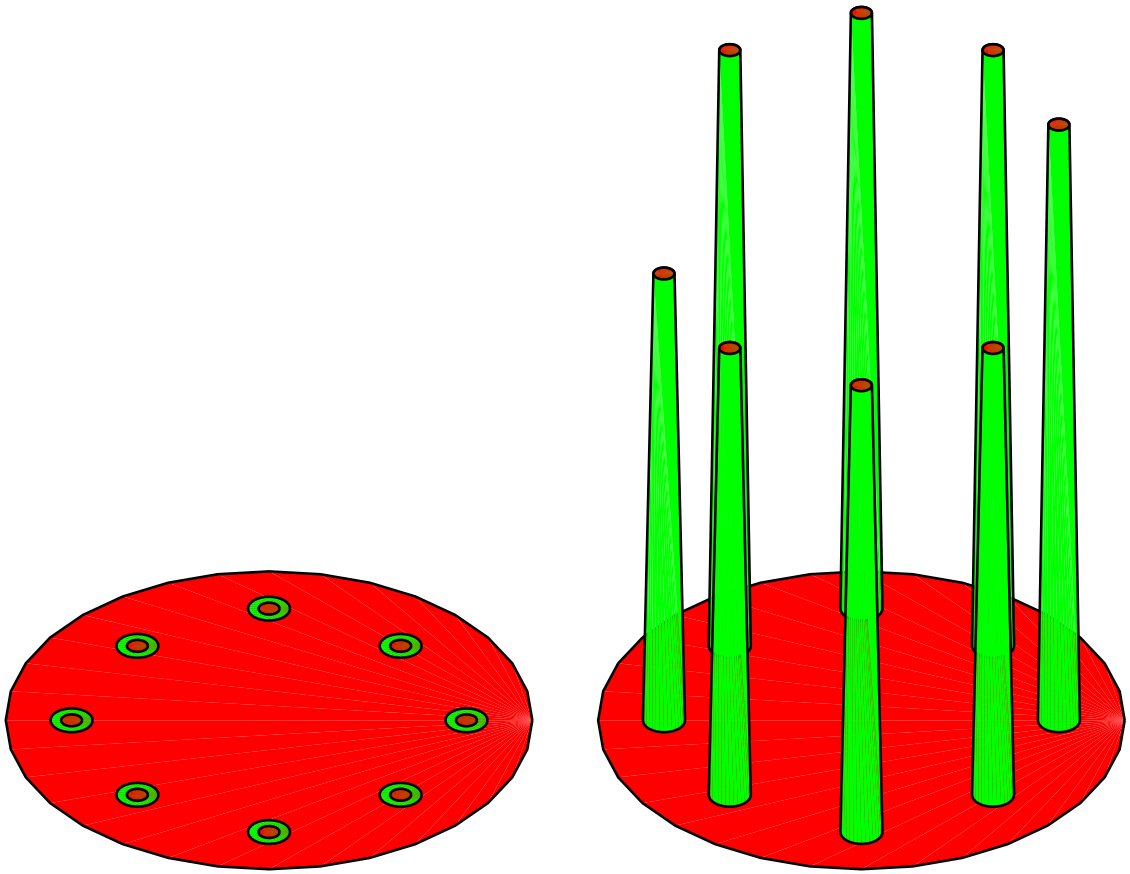
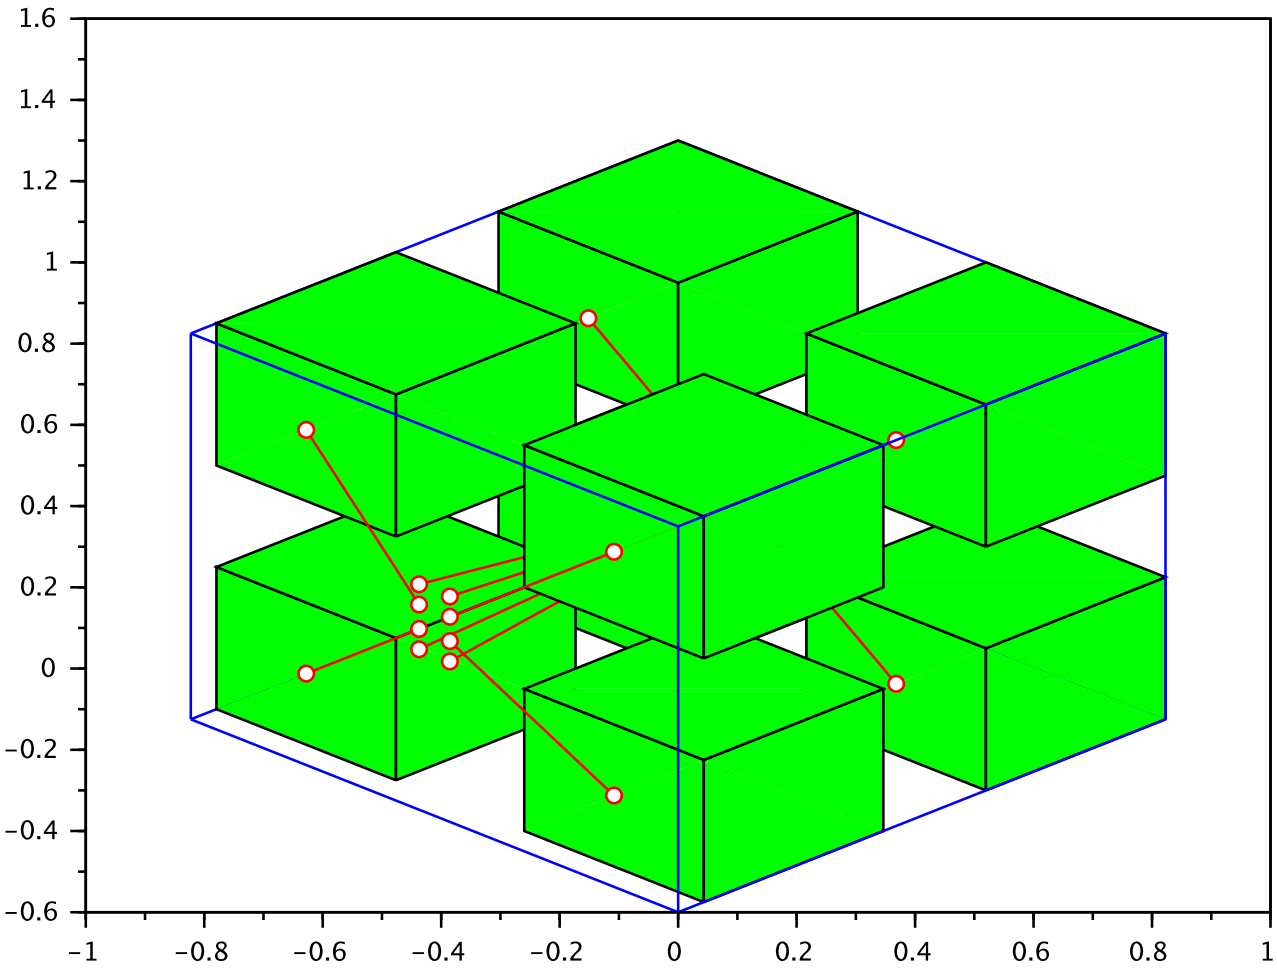
Volume $M^3 - 1$: $3 \cdot 2^n M^2 \delta_n < 1/2^n$



Surface area ε: Surface Area, $8^n \gamma_n M/2^n < \varepsilon/2^n$



Slightly shifted with added AC



Finally

You have a lot of support, if you need help, ask.
You are the math department.
